Linda

A few months ago I had to go for an operation. It was a preventative operation that I had to get, due to my family history. A few days prior to my operation Mariska Basson visited me with a goodie bag filled with a magazine and the yummiest treats. It really lifted my spirit. What I did not expect at all was when Mariska informed me that I could benefit from a policy that I took out with her a few years ago. It never even crossed my mind! That just showed me that she really was looking after my best interest. What a pleasant surprise to help ease the anxiety and fear that I had for my upcoming surgery! Excellent service and so much compassion - really going the extra mile! Thank you so much Mariska!
